MY CAREER READY TEAM

KIRSTY

THIS IS KIRSTY. SHE IS MY CAREER-READY MENTOR. KIRSTY IS ON THE TECHFEST TEAM, WHICH IS WHY THIS WAS MY CHOSEN WORKPLACE FOR THE INTERNSHIP. KIRSTY IS A FUN, OUTGOING PERSON AND HAS PROVIDED ME WITH PATIENCE, KINDNESS, AND COURAGE. DURING THE INTERNSHIP.

EVE

THIS IS EVE, THIS IS SHE'S ANOTHER CAREER-READY MENTOR. SHE IS A KIND PERSON WITH A BIG HEART AND HAS BEEN HELPING US WITH OUR 24 DAYS OF STEM WORK AND HAS BEEN GIVING US LOADS OF SUPPORT AND MOTIVATION WHEN DOING STUFF. OTHER THAN THE MAIN PROJECT.

NICOLE

THIS IS NICOLE. SHE'S ANOTHER FELLOW CAREER-READY INTERN, AND I SEE HER AS A CONFIDENT INDIVIDUAL. SHE RECORDED HERSELF DOING STEM ACTIVITIES, AS WELL AS PARTICIPATING IN MAKING THE 24 DAYS OF STEM ADVANTAGE CALENDAR.

CHARLEY

THIS IS CHARLE. SHE'S ONE OF MY FELLOW CAREER-READY INTERNS AND I SEE HER AS A HARDWORKING INDIVIDUAL. SHE HELPED RECORD AND EXPERIMENT, AS WELL AS PARTICIPATE IN MAKING THE 24 DAYS OF STEM ADVANTAGE CALENDAR.

INTERDUCTION

My Name is Hannah Kelbie, and I am an intern at Techfest and got this opportunity through the career-ready programme. I am currently an S6 pupil at Harlaw Academy. The subjects I have taken this year include Higher Hospitality, Higher Music, Nat5 Applications in Maths, and Nat5 Art. I'm known as an introvert, and my hobbies include reading, singing, and playing video games. Lastly, I enjoy watching different types of movie genres.

I don't know exactly if I want to go to college or University, so I'm waiting to see if any courses interest me shortly. But this is one of the reasons why i joined the Career Ready programme, just in case I wanted to go straight to a job instead of continuing to pursue education.

INTERNSHIP:

WEEK 1

The first week of my internship me was pretty laid back and the first week gave me time to get to know the office and how things in the Techfest office usually work. During our first week of the internship me, Charley and Nicole where given a tour (By Kirsty & Eve) Showing us places outside the work place which included the near by shops, cafes, Aberdeen Campus and cute spots we can go and relax when having our lunch breaks and every spot gave us a opportunity to take good looking photographs. The walk was a nice calming walk to our day and gave us a good insight on places to go and then we went straight to start planning out the 24 days of Stem project, which is a project that is mainly for primary school kids and is usually done at Christmas time and is filled with a verity of Educational and fun activities.

During the week me, Nicole & Charley all began to start planning out what activities we'll be doing for our 24 day stem calendar so we got a opportunity to do some research on activities we could use and got to look at old stem calendar ideas that former career ready pupil's have done and we worked on picking the activities we were planning to do from Monday to Wednesday and then we made our decision on what to do, on Thursday i worked on the blog and presentation and fixed some details on the word search activity and lastly Friday was a day off.

INTERNSHIP:

WEEK 2

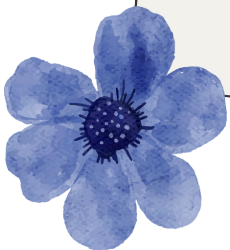

The second week of my internship began with me working comfortably from home, allowing me to start working on the STEM activity advent calendar. I began by designing the front page and then moved on to the information and instructions. The second day, I went to an OEUK visit, and we were given a presentation on what the company does and what Oil and gas businesses do. Then, we moved on to team activities, which included how we'd run our own business and, if we were a government, what kind of policies we'd have as a group. Then the next day I was making a marketing promotion poster showing what could be more attractive to people, and then I continued working on adding the instructions for a couple more STEM activities and adding pictures and details to the Advent Calendar and I also continued to make my Blog and Presentation fixing the writing and adding some pictures.

INTERNSHIP:

WEEK 3

THE THIRD WEEK OF MY INTERNSHIP BEGAN WITH ME WORKING COMFORTABLY FROM HOME, ALLOWING ME TO COMPLETE MY FIRST DRAFT OF THE STEM ADVENT CALENDAR, ENSURING THAT ALL THE NECESSARY INFORMATION FOR EVERY PAGE WAS INCLUDED. THE NEXT DAY, I RECEIVED FEEDBACK ON WHAT TO IMPROVE IN THE STEM ADVENT CALENDAR, AND I ADDRESSED EVERYTHING OUTLINED, ADDING SOME EXTRA VIDEOS AND PHOTOGRAPHS. AND THAT WAS THE STEM ADVENT CALENDAR FINISHED. THE DAY AFTER, I SPENT MY TIME WORKING ON MY BLOG AND PRESENTATION, AND THEN I WAS TASKED WITH PAINTING CARDBOARD RUBES AND TISSUE BOXES FOR A STEM ACTIVITY. THE LAST DAY OF WEEK THREE FINISHED UP THE TOUCHES OF THE MARKETING POSTER AND ADDED MORE WRITING AND DETAILS BEFORE FINALLY PRESENTING IT LATER ON IN THE DAY. THEN, AFTER THAT, I NEEDED TO COVER THE PAINTED TISSUE BOXES WITH NEWSPAPERS DUE TO THE TISSUE BOXES' PAINT NOT LOOKING GOOD AND THAT'S MY ROUND UP OF WEEK 3.

INTERNSHIP:

WEEK 4

THE FOURTH WEEK OF MY INTERNSHIP BEGAN WITH ME WORKING COMFORTABLY FROM HOME, EDITING MY BLOG AND PRESENTATION BY ADDING AND ADJUSTING SOME OF THE PHOTOGRAPHS AND SENTENCES. THE NEXT DAY, I PARTICIPATED IN THE TALL SHIPS EVENT AND HELPED EXPLAIN ACTIVITIES TO BOTH ADULTS AND CHILDREN, ASSISTING THEM AS NEEDED.

AFTER THAT, I WAS DOING MY FINAL EDITS OF MY PRESENTATION AND BLOG. SO AND I THEN DID A PRACTICE RUN OF MY PRESENTATION AND GOT A REVIEW OF MY BLOG BEFORE MY FINAL PRESENTATION THE NEXT DAY, AND THAT CONCLUDES MY TIME AT TECHFEST.

WOULD I RECOMMEND THE CAREER READY PROGRAM?

I WOULD 100% RECOMMENDED CAREER READY IF YOU EVER GET A CHANCE TO DO IT AND IF YOU EVER GET PAIRED WITH TECHFEST TO TRY YOUR HARDEST AND TO BE THE MOST BEST PERSON OF YOURSELF, IT WAS A GREAT EXPERIENCE PERSONALLY IT INCLUDED SUPPORTIVE PEOPLE AND GAVE ME A EXAMPLE OF WHAT TO EXPECT IF I GOT A JOB LIKE THIS SHORTLY AND I AM SO GRATEFUL ABOUT GETTING CHOSEN TO HAVE HAD THIS OPPORTUNITY.

I FEEL THAT THIS PROGRAM HELPED IMPROVE MY SKILLS AND ABILITIES AND TAUGHT ME NEW STUFF I NEVER KNEW I HAD BEFORE, AND HAS INCREASED MY SELF-CONFIDENCE I USED TO HAVE.

SOME DAYS IN THE TECHFEST OFFICE MAY FEEL AND SEEM THE SAME, BUT YOU GET OPPORTUNITIES TO DO DIFFERENT ACTIVITIES AS WELL. IT HELPS WITH DISCOVERING YOUR LIKES AND DISLIKES IN THE WORK AREAS. THIS EXPERIENCE HAS TAUGHT ME THAT MAYBE AN OFFICE ENVIRONMENT ISN'T MY THING.
